# Has your NAB audited your laboratory remotely?

36 responses

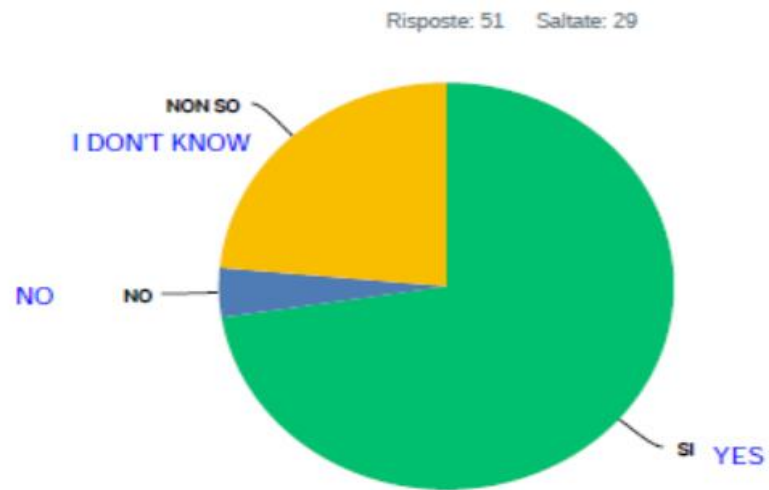

If yes, do you consider that the audit has been effective?

9 responses

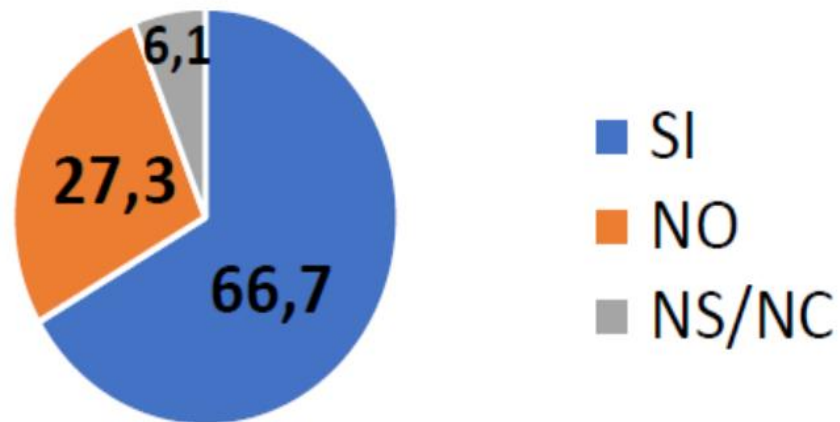

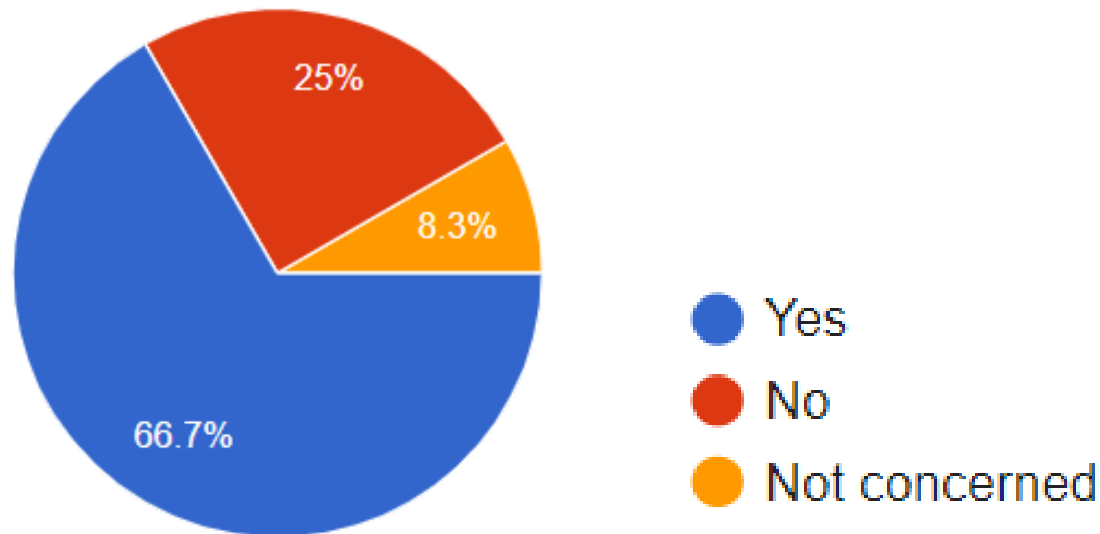

■ SI ■ NO

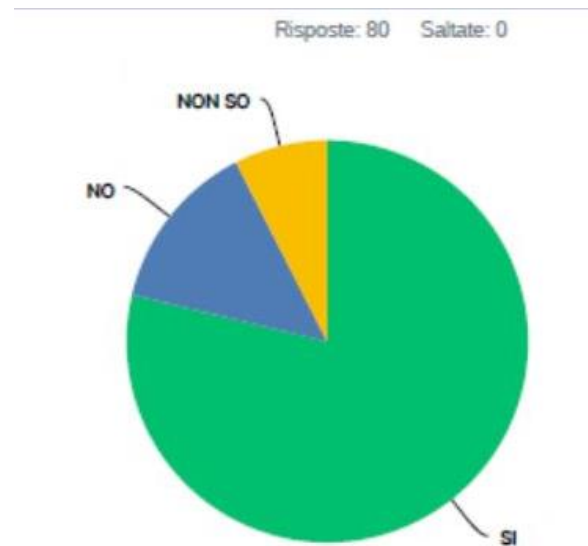

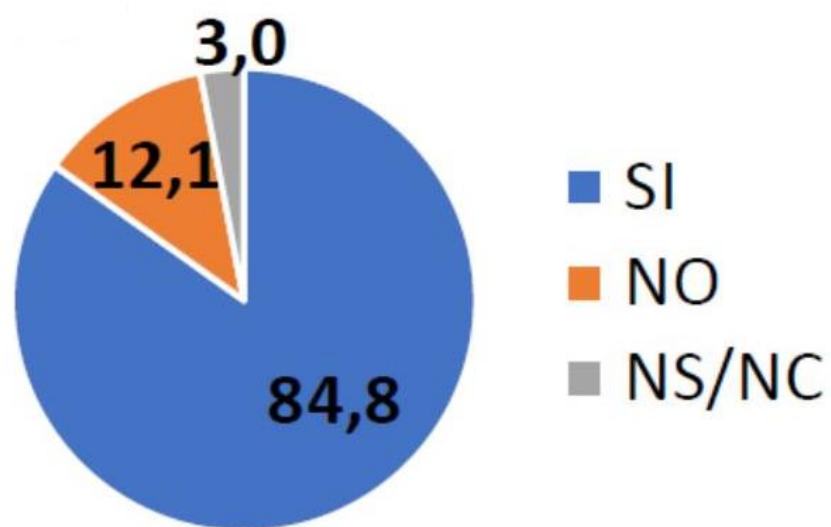

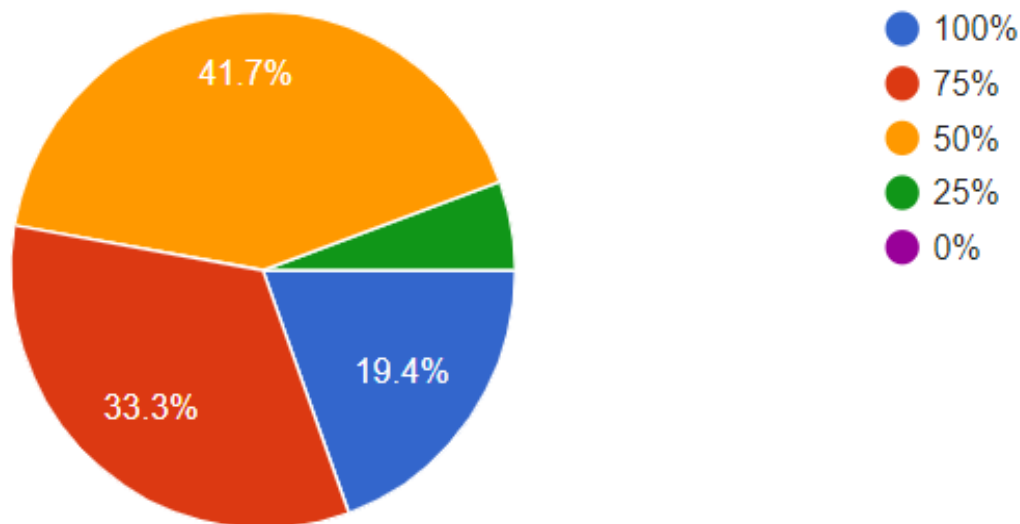

Regardless of whether or not your laboratory has been remotely audited, do you consider it appropriate for your NAB to continue to develop the remote audit procedure on a regular basis once the COVID-19 related reasons are removed?

36 responses

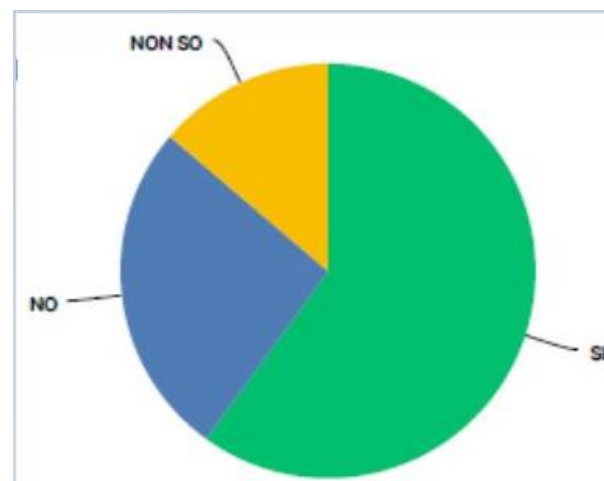

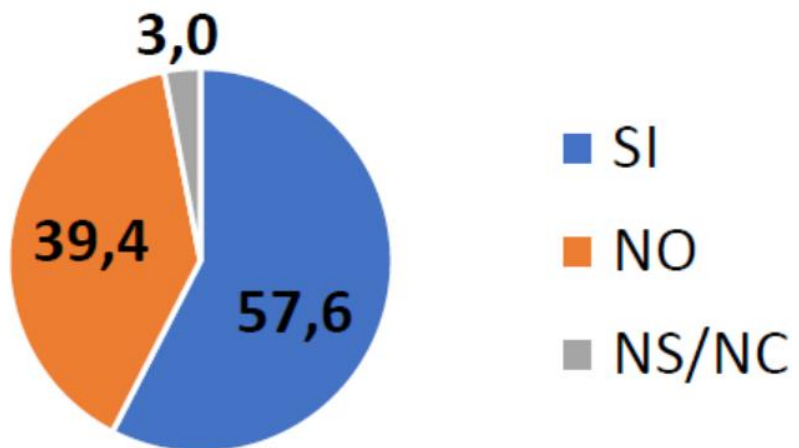

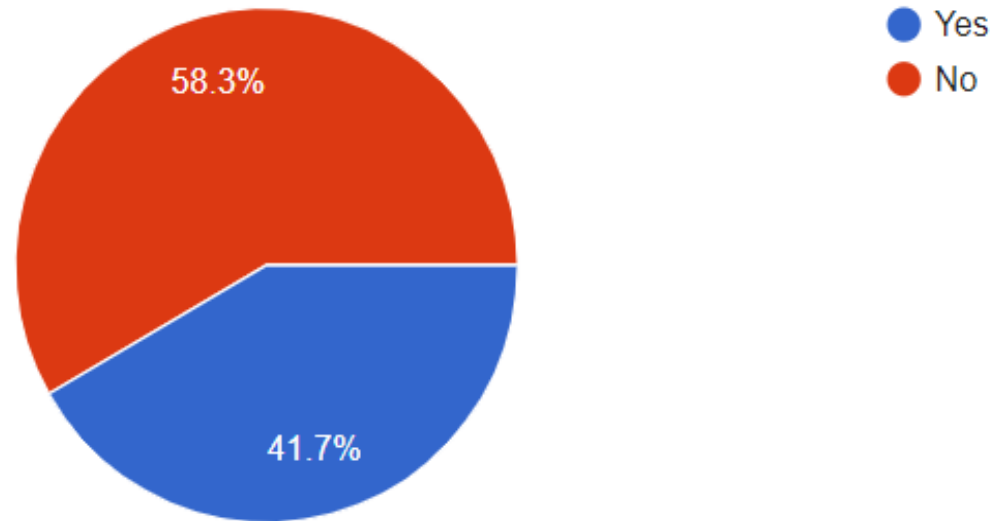

Do you think that the level of digitization of your organization is sufficient to face remote audit processes?

36 responses

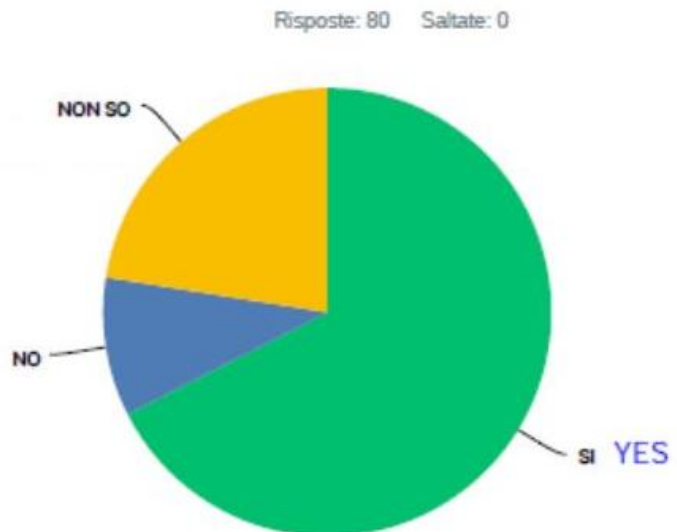

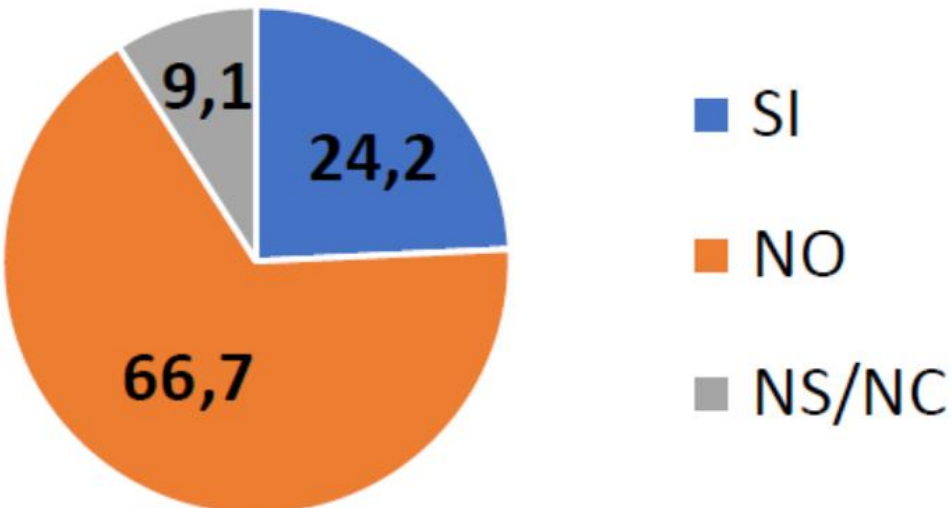

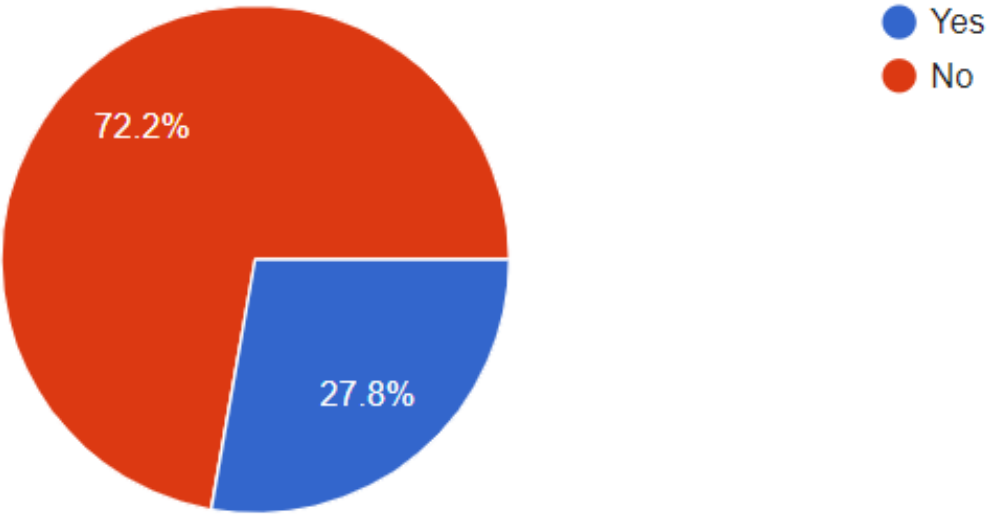

Does your laboratory have image transmission systems that allow verifying distance tests online?

36 responses

Does your laboratory have data protection systems -eg Audit Trail- that allow remote data integrity verification?

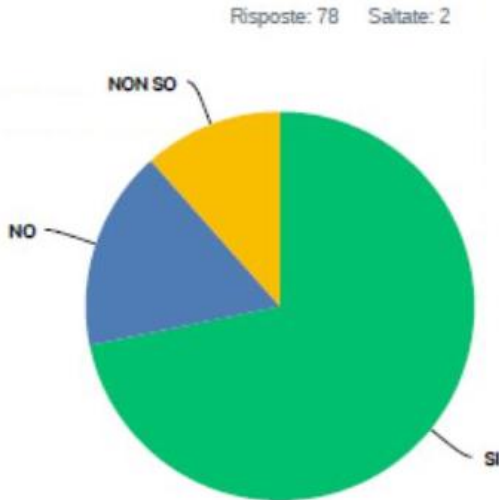

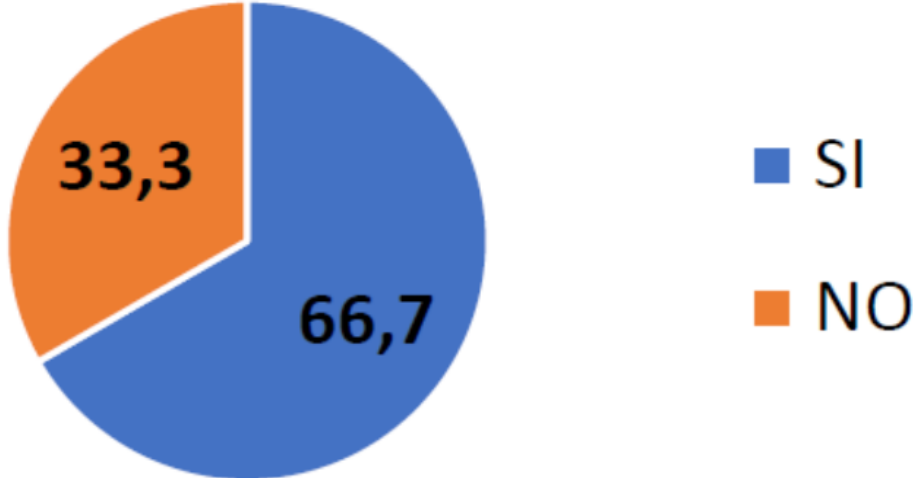

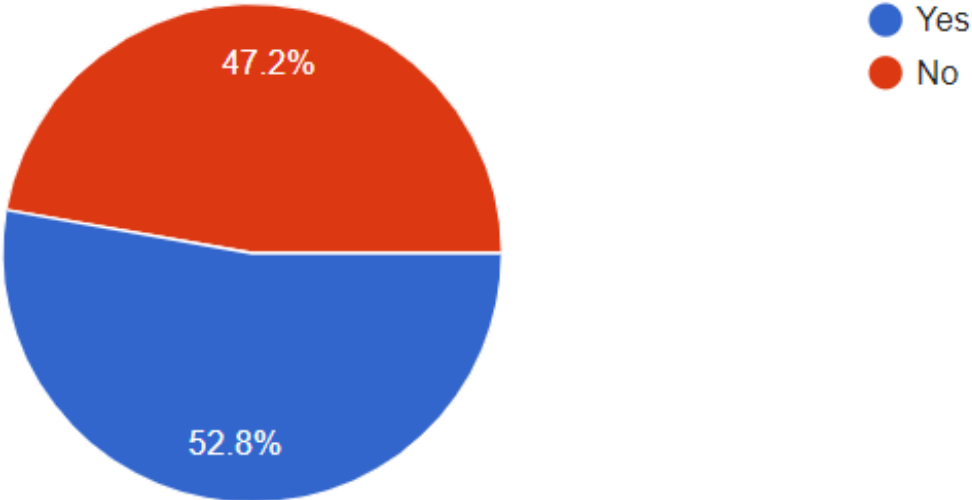

36 responses

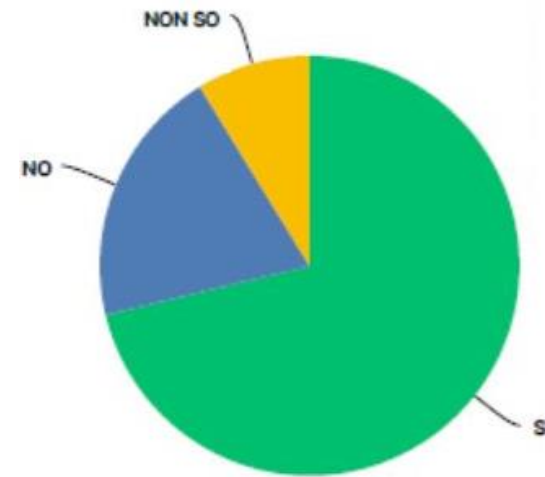

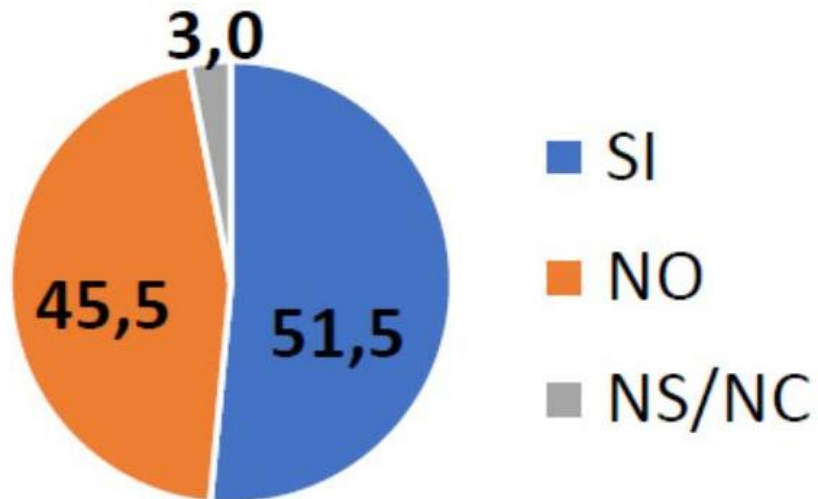

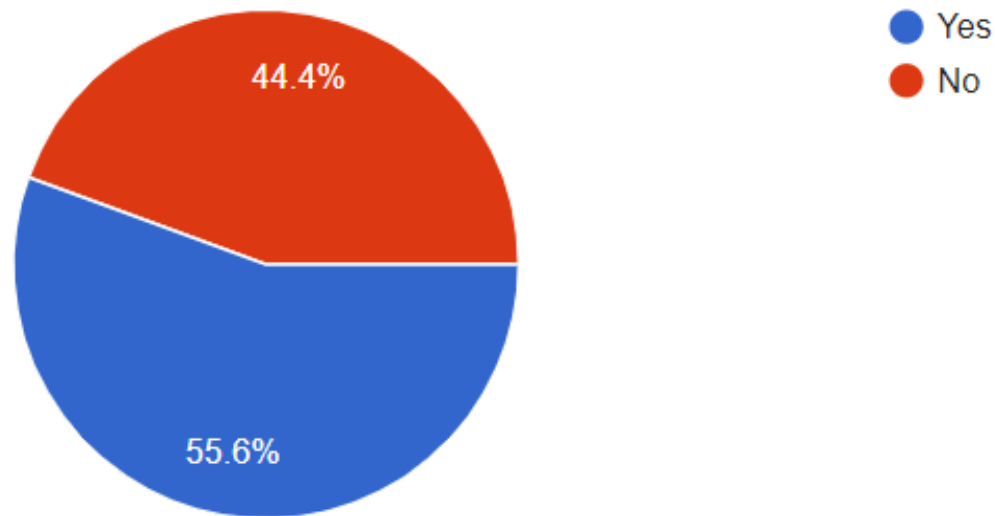

Do you think that a remote connection to test equipment, computers, databases or other sources of information in your organization would be possible to facilitate a remote audit of your laboratory?

36 responses

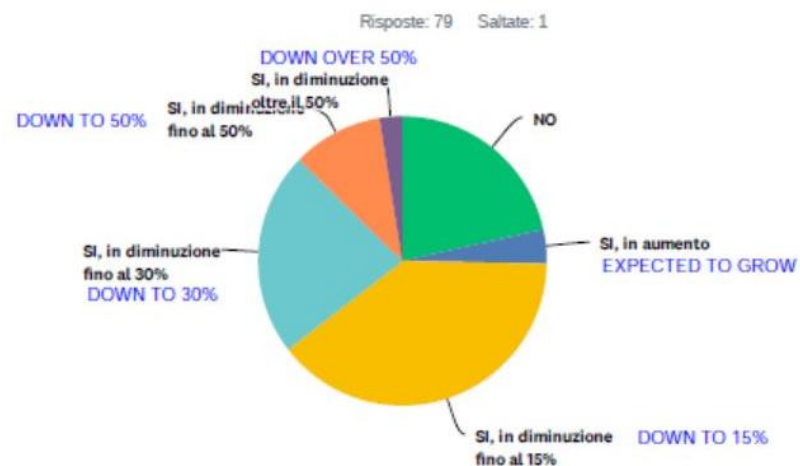

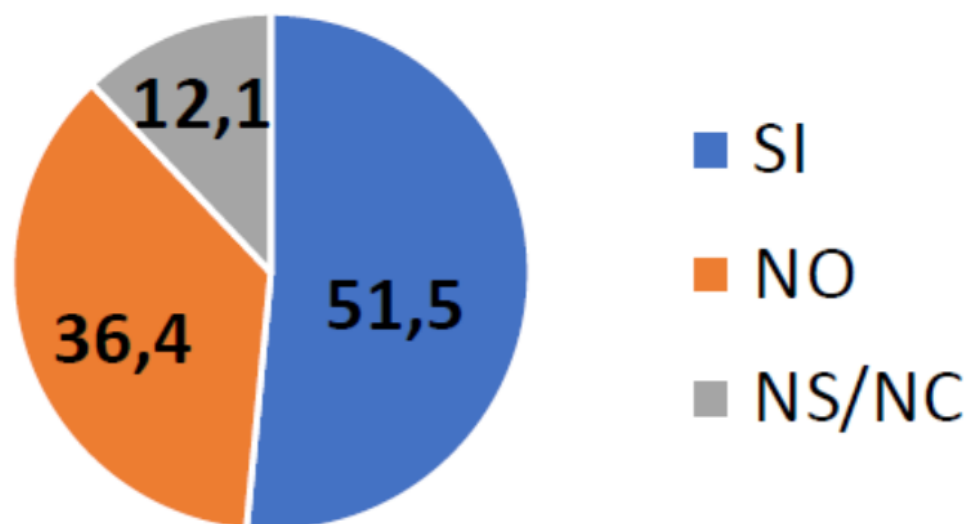

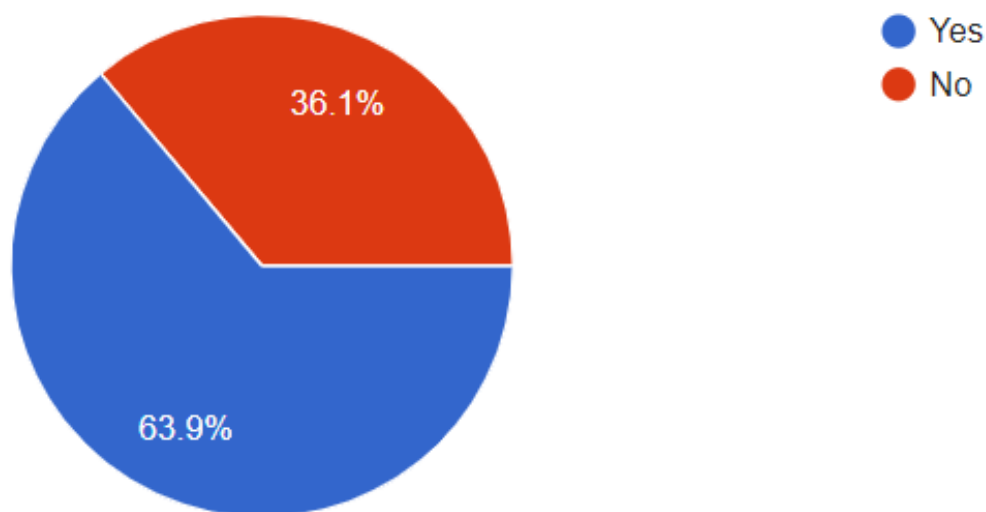

In relation to the organizational system of your laboratory and more specifically in relation to teleworking methods, do you think that there will be a "before and after" with respect to COVID-19?

36 responses

Do you think that the income of your laboratory in 2020 could be affected by more than 10% compared to that of 2019 due to the health crisis of COVID-19?
